

# José's Easy Price Form

Fill the blanks. Guess nothing. Leave unknown boxes empty.

**WHAT WE NEED FROM YOU**

Tell us the price for the shortest size. Then tell us how much to add when the size gets bigger.  
We will use those two numbers to make all the website prices for you.

**YOUR NAME**

**NAME**

**PHONE**

**DATE**

**QUICK EXAMPLE**

If a 10mm silver chain is \$1,000 at 16 inches, and every extra 2 inches costs \$100:

Write: 10mm | 999 Silver | 16 inches | \$1,000 | \$100 | longest size

**WHAT DO YOU SELL?**

- ☐ Chains
- ☐ Bracelets
- ☐ Rings
- ☐ Something else

**IF SOMETHING ELSE, WRITE IT HERE**

# Chains and Bracelets

Use simple prices. We will build the website choices.

## CHAIN PRICES

One line for each width and metal you sell.

| WIDTH | METAL | SHORTEST SIZE | PRICE FOR THAT SIZE | ADD FOR EACH 2 INCHES | LONGEST SIZE |
|-------|-------|---------------|---------------------|-----------------------|--------------|
|       |       |               |                     |                       |              |
|       |       |               |                     |                       |              |
|       |       |               |                     |                       |              |
|       |       |               |                     |                       |              |

Metal examples: 999 Silver, 10K Gold, 14K Gold. Size examples: 16 inches to 26 inches.

## BRACELET PRICES

One line for each width and metal you sell.

| WIDTH | METAL | SHORTEST SIZE | PRICE FOR THAT SIZE | ADD FOR EACH 1/2 INCH | LONGEST SIZE |
|-------|-------|---------------|---------------------|-----------------------|--------------|
|       |       |               |                     |                       |              |
|       |       |               |                     |                       |              |
|       |       |               |                     |                       |              |
|       |       |               |                     |                       |              |

Size examples: 6.5 inches to 9 inches.

# Rings and Extras

## RING PRICES

One line for each width and metal you sell.

| WIDTH | METAL | SHORTEST SIZE | PRICE FOR THAT SIZE | ADD FOR EACH 1/2 SIZE | LONGEST SIZE |
|-------|-------|---------------|---------------------|-----------------------|--------------|
|       |       |               |                     |                       |              |
|       |       |               |                     |                       |              |
|       |       |               |                     |                       |              |
|       |       |               |                     |                       |              |

Size examples: US size 5 to 13. Metal examples: 999 Silver, 10K Gold, 14K Gold.

## EXTRA COSTS

| Plain lock adds \$ | Diamond adds \$ | Ruby adds \$ | Sapphire adds \$ | Emerald adds \$ | Rush job adds \$ |
|--------------------|-----------------|--------------|------------------|-----------------|------------------|
|                    |                 |              |                  |                 |                  |

## TIME AND RULES

| HOW MANY WEEKS? | DEPOSIT? HOW MUCH? | CUSTOM ORDERS FINAL SALE? | CALL IF UNCLEAR? |
|-----------------|--------------------|---------------------------|------------------|
|                 |                    |                           |                  |
